NEWBORN

SERVICE + PRICING

Sessions include styling and setup, photography time, professional editing, an online gallery to make your selections, and fully retouched digital files with print release.

WHY US?

Our studio is fully stocked with a thoughtfully curated collection of wraps, props, and accessories. Because no two babies are the same, we take the time to style each session around styles *you love*, creating images that feel timeless and personal.

HOW IT WORKS

Newborn sessions are scheduled between 5-12 days after birth, when babies are typically sleepest and easiest to pose. Your due date is tentatively placed on our calendar, and once baby arrives, we'll work with you to narrow down a date.

PRICING

Our base package includes up to 1.5 hours of session time with two outfits and two custom scenes. *Starts at \$400*

10 images - \$400 | 25 images - \$575 | ALL images - \$750

Additional time is available and recommended for family and/or sibling shots, as these require more time and transitions during the session.

Additional hour and scene - \$150
